

Centra-Flat

Symmetrical non-PC flat dripper

This compact emitter for agriculture features a wide flowpath cross-section and extra large filtration area for effective, efficient performance and excellent clogging resistance.

Advantages and Benefits

Durable and Clog-Resistant

This compact emitter with large turbulent flowpaths offers high emission uniformity and outstanding resistance to clogging.

Excellent Uniformity

Dripper CV <3% ensures flow uniformity between drip outlets.

High Clogging Resistance

A labyrinth with a large cross-sectional area reduces the risk of clogging.

Superior Filtration

An extended and elevated filter entrance ensures that cleaner water enters the dripper.

Ease of Manufacturing

The Centra-Flat is symmetrical, which allows high speed feeding in the production line.

Built-in Quality and Durability

Constructed with 100% premium virgin polyethylene and additives for resistance to UV degradation and damage caused from commonly used chemicals and fertilizers.

16mm and 20mm Diameters

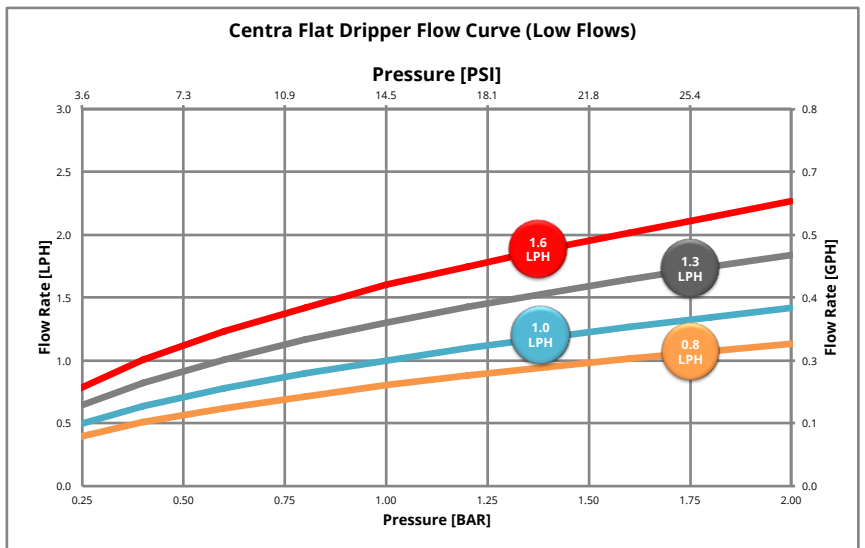

Centra-Flat is a symmetrical dripper suitable for 16mm and 20mm pipe.

Flows Available:

0.8, 1.0, 1.3, 1.6, 2.0, 2.4, 3.8, and 4.0 LPH

Centra-Flat

Symmetric non-PC flat dripper
